HIGH-PERFORMANCE ALKALINE CLEANER FOR SURFACE CLEANING

- High-degreasing power cleaner.
- Non-foaming.
- Suitable for both mechanical and manual use.
- Odorless and HACCP compliant.

ALKA FORCE

Alkaline cleaner with high degreasing power, ideal for removing organic contamination from all washable surfaces. Effectively removes greasy dirt and oil residues.

How to use

- Perform a preliminary test on a tile to check the result and contact time.
- Apply the product to the surface using a white, green, or brown pad depending on the type of material.
- Let it act for 20–30 minutes, scrubbing with the pad every 5 minutes.
- After 20–30 minutes, wipe the surface with a sponge and water (preferably warm).
- Remove residues with a cloth or wet vacuum. Rinse thoroughly with water.
- Repeat the operation if necessary.
- Do not use on rubber flooring.

Dilution

- For regular cleaning, dilute in water at 2% to 5% concentration.
- For regular cleaning, dilute in water at 10% to 30% concentration.

Technical data

- Appearance: Liquid.
- Contains: Tetrasodium Ethylenediaminetetraacetate – Sodium Hydroxide
